

### **Section 3 Behavior Pathways Mapping Activity Instructions**

Build upon the discussion we started in class about behavior pathways and using this mapping framework to better understand what might have happened.

- Answer the questions in the first section of the handout as an analysis of the interaction.
- Then map out what you think occurred using the nervous system states of activation visual on the handout.
- Finally, using the question on the second page, come up with a plan to approach the interaction in the future.

**Due 12/16/24**

**Please note, homework for section two also includes making a post on the course forum, due 12/23/24.**

You will find the course forum in the upper right-hand corner of the course page, or [Click here](#). You must be logged into your account to access the forum.

#### **Layered Behavior Plan:**

You also have another assignment in section 3 that you may choose to complete. It is the layered behavior plan **Due 1/20/25**
