General Registration Information

Confirmation of Registration to students

Registration requests submitted through the provided hidden link will be processed by the CSU Online Enrollment Services team. Once the request has been processed, students will be emailed a registration confirmation within 24 to 72 hours to the email address they entered during the registration process. The registration confirmation will include:

1. The student's CSU ID
2. Information about billing and how to pay their bill through their RAMrecord account.

Student Billing

 Please note that payment for the registration is not submitted through the CSU Online website. Instead, students will be billed for their registration and registration fees paid through their RAMrecord account per the steps below:

1. RAMrecord: Students will pay their registration fees through RAMrecord. Each student will need to create a RAMrecord account through which they will pay their registration fees.
2. Billing: Students will be billed for the course on the 10th of the month following their registration.
3. Email address: Student bills and information from CSU will go to their colostate.edu email address and/or the email address they entered during the registration process through the hidden link.

No Refunds or Drops

Refunds are not available for contract courses. Students will not be able to drop or withdraw their registration in a contract course with CSU Online.
